A DECEITFUL POLICY

in dark all the facts about Vietnam. If the American youths knew that they have been forced to carry out a dirty war of aggression how could the US Government send hundreds of thousands of US troops to fight in Vietnam as they are doing now.

The US scheme to invade our country had risen long time ago. From 1950 when the French colonialists were dangerously miring in Indochina, 80% of the war budget in Indochina was paid by the US Government with a dark attempt to steply kick the French colonialists out of Indochina and replace their position there. In 1954 the US Government made Ngo-dinhDiem — a Vietnamese traitor who then roving in USA a prime minister of the Saigon puppet Government. Not long after that Bao Dai was overthrew and Ngo dinh Diem kicked upstairs to president. The ink on the 1954

Geneva Agreements had hardly dried when the US Government hurriedly set up SEATO in order to sabotage the Agreements. It declared that it was not controlled by these Agreements and backed the South Vietnam Administration to reject the consultative conference between two zones which should have been organized in 1956 aiming at advancing toward the general election in the whole country as being provided for by the 1954 Geneva Agreements.

○ US aggressive scheme is transparent to everyone: They want to permanently divide Vietnam, turn SVN into a separated nation and a US new type colony and US military base in SEA.

Using its system of military and civil advisors washington has controlled the Saigon Administration, it spends yearly about 5—6 hundred million dollars in bolstering the puppet army

and administration setting up hundreds of thousands of concentration camps under the name «strategist hamlet» and repressing barbarously the movement of the Vietnamese people for independence, freedom and national reunification.

In 1965 facing with the powerful attacks of the people and Liberation Army of South Vietnam, the puppet army and Administration rapidly disintegrated, the US Government was forced to throw off the thin screen to cover its aggressive face and decided to send US expeditionary troops to direct fight in Vietnam; then tens of thousands of American youths had to part from their schools, factories, families, their native homes to rush to SVN and became cannon folders for a criminal aggressive policy which is contrary to the true American ideals.

The US Government has been facing with the indignations of the very American people as well as the peace loving people all over the world. To advocate for this, the Washington circles shouted «North Vietnam aggresses South Vietnam» (or in other words «The Vietnamese aggresses Vietnam») and «The United States must keep her pledge with the Saigon Government...» But.

### What is the Saigon Government?

It is a few crooks which has been set up and fattened by US dollars, through them US imperialists carry out their policy of slavery in South Vietnam. They are representing nobody or more correctly they only represent a group of people who have the tradition of «Bringing in snakes to kill chickens of the home coop» as the Vietnamese saying.

Friends! take a good look at them, from late Ngo dinh Diem to the present generals Nguyen van Thieu — Nguyen cao Ky, what are their general charesters?

To serve as US efficient henchmen, maniacally oppose their countrymen. There was such a kind of person as Ngo dinh Diem who could train a group of runing dogs which comple'ely lost their human charesters and became a herd of wild animals. They even could drink humanblood and eat humanlivers; Their murderous ways were more barbarous than that of the middle ages.

They look like the marionettes in the Southern political stage, it is thanks to the bayonets of the USA that each of them can rules the roost in a certain time then disappear, once US Senator Fubbright said that if US troops leave VN for home then they

(US henchmen in Saigon) hardly keep their position within two weeks after that (Fulbright in commenting on Nguyen cao Ky, December 1966).

They are enriching and living a very lavish way on the sweat and blood of the Vietnamese people and always find chances to steal the «American aid». They are all the times quarreling and scrambling for power then finally killing or forcing eachother to go abroad as the rovers. The «American cabmen» even also felt tired of their «unfit horses» From 1963 ie after the deaths of the Diem — Nhu brothers so many times had they changed horses at midstream.

The whole 14 million South Vietnamese people abhor and resolutely oppose them but the US Government promised to bolster these kinds of people and regimes in South Vietnam.

## Who is the South Vietnam National Front for Liberation?

The Vietnamese people only know the SVNNFL, their only real representative. Under the Front's banner all the strata of people including peasants, workers, pupils, students, intellectuals, artists, buddhists, catholics and liberation soldiers are united as one man to resolve to fight against US aggressors and the Vietnamese traitors until final victory. The aim of the SVNNFL's struggle is: to *achieve an independent, democratic peaceful and neutral South Vietnam and an eventual national reunification*. The Front has its diplomatic representations in many countries including the neutral and capitalist ones.

At home, under the Front's leadership, during 8 years of struggling against US aggressors, the people and

Army of South Vietnam have frustrated many US military and political plans, liberated 4/5 of South Vietnam territory with 3/4 of inhabitants.

Some years ago, the late President Kennedy considered SVN as «a tunnel with no end in sight» for the United States, and at present, with the military forces composed of more than one million US — puppet — satellite troops, the 7<sup>th</sup> Fleet, 3000 aircraft of all types but White house must admit that the United States can not win in Vietnam.

President Johnson is a war monster covered by the Olive branch.

The present war in Vietnam is focussing world attention, the peace and justic loving peoples all over the world have had many positive acts to support the just struggle of the

Vietnamese people and oppose the aggressive policy of the US Government.

In the very land of America, the movement for the ending of the war in Vietnam is growing stronger in which students, professors, scientists, women play the advancing role. Many US Senators as Fulbright, Gruning, Mensfield, Morse, Robert Kennedy have raised voices to demand their Government end unconditionally the bombings and strafings of North Vietnam and recognize the SVNNFL in advance toward a political solution for the Vietnam conflict. The American Priests also took part in this movement, hundreds of them were marching from many States to Washington, they organized meetings, demonstrations and refused to eat to oppose Johnson Government in prolonging the aggressive war in Vietnam.

Thirteen years ago, with their failure in Dien bien phu the French colonialists had to give up their dream of invading Indochina, then now in Vietnam, it is the Americans who are on the eve of bigger Dien bien phu.

To cope with its bitter military failure and political desolation what did the Johnson Government do?

Tens of thousands of US combat troops are continuously sent to SVN: 150,000 men at the end of 1965 — 330,000 men at the end of 1966 and 420,000 on March 1967 added with 55,000 Satellite troops, 500,000 puppet troops, the numbers of aircraft, tanks armoured cars are double times more than in comparison with 1965. The most up to date weapons are used largely. In many cases There have been whole villages burned and destroyed, all villagers were killed, Some-

townships' names were abolished from the map.

In North Vietnam, they continue escalating to the new steps: bombing and strafing Hanoi — Haiphong, using gunships and long rang artilleries based on the South of the 17<sup>th</sup> parallel to shell the North in compensating for the air actions, Drop mines into Northern rivers and intensify the bombing and strafing of North Vietnam.

Mr Johnson while waving his left hand to order to intensify the war to kill more and more the Vietnamese people as well as the American youths, he put the other on his heart and called as if he was a real peace loving gentleman «peace...» «peace negotiation...».

He also declared «his readiness to talk peace in any where, at anytime... tomorrow... or rightnow». He even dared to deceive God by calling on the

American people to pray God to bring peace for Vietnam.

President Johnson's peace campaign is but a smoke screen to cover the act of intensifying the war and to mix between the good and the bad. The Washington ruling circles' scheme is to intensify using their military pressure to force the Vietnamese people accept discussion on their own terms, The true character of the Manila dicission is demand the Vietnamese lay down their arms and surrender so that the US henchmen in Saigon can freely divide Vietnam and bring Vietnam back to the Hellish life as some years ago without any resistance from their adverseries.

It is clear that, through the so called «Unconditional negotiation» The United States Government wants to achi-

eve on the conference table what it couldn't achieve on the battlefield.

How mythic the wild ambition of President Johnson is! He was incorrectly estimating and understanding about the Vietnamese people. The Vietnamese people are proud of their history of fighting against invaders. With the mighty force of the great unity of the whole people our people once defeated more than 300,000 Mongolian feudal invaders commanded by general Kublai-Khan which were regarded as the strongest troops in Asia at that time — We defeated the French colonialists, one of the world powers and now we are defeating and will certainly defeat the aggressive scheme of the American imperialists. If the US imperialists have their expeditionary corps composed of modern air — naval — ground forces,

then we have the great love for the Fatherland, the deep national hatred for the aggressors, the unconquered spirit of 31,000,000 Vietnamese people in both zones which turned into the fire-sea of people's war, and with the spiritual and material support of the progressive mankind in addition.

Through 20 years of atrocious war the Vietnamese people are very much longing for peace, but it must be a true peace on the basis of independence and freedom, not the American type of disingenous peace. The Vietnamese people determine to fight until their just aspiration is gained. This aspiration has been mentioned on the stand of the SVNNFL in settling the Vietnam problem which was declared on December 10-1966 by lawyer Nguyen huu Tho — chairman of the Front:

1. The United States must end its war of aggression in Vietnam, strictly

respect and observe the 1954 Geneva Agreements on Vietnam, withdraw from SVN all US and Satellite troops, dismantle all US military bases in SVN.

2. The United States must respect all the National rights of the South Vietnamese people: Independence, Democracy, Peace and Neutrality. The internal affairs of SVN must be settled by the people of SVN themselves without any foreign interference. The reunification of Vietnam must freely be undertaken by the Vietnamese people in both zones.

3. The South Vietnam National Front For Liberation — The only real representative of the South Vietnamese people must have its decided position and voice on any political solution for the South Vietnam problem.

You, The sons of the American people who have the freedom and justic loving tradition what should you do in Vietnam?

American officers and soldiers ! waging war is the avenue of enrichment of the munition and war material making capitalists, on the contrary it is the bankrupt, suffering and death way for the common people. The Johnson Government had committed crime in deceiving the American people to lead them in this way.

In the United States, your countrymen are meeting with difficulties due to the rocketing cost of the goods and the increasing of taxes to serve the war. The sentimental life is being shaking up because of departing, missing, mourning, widowhood and indignation.

In Vietnam, tens of thousands of you lost their lives in the battlefields, it is very regretful for those whose deaths were not only the nonsensical ones but contrasting to the God's will and the freedom and justic loving tradition of the American people.

At present, many of you begin realising this fact and having courageous acts against the US war, For instances :

In 1966 many US Marines refused to carry out reinforcement for the National road N<sup>o</sup> 9 (South of the un-militized zone) many of you resolutely demanded for being sent home and refused to fight in Vietnam. More than 300 American armymen would rather stay in the Chulai prision than to die uselessly. One American soldier said in the letter to his sweetheart « ... Honey, when my terms of serviee is over I will hurry home to you right

way. If they invite me to stay only one day more in Vietnam then make me president of the United States I will say no... ».

April 1965 the whole battalion of the 2<sup>nd</sup> Brigade, 25<sup>th</sup> inf Division stationed at Cuchi (near Saigon) refused being helilifted to carry out operation to kill the Vietnamese people finally their superiors had to yiel their points.

Jun 1966 another battalion of the 25 inf Division waged a struggle refusing to carry out operation — one soldier of the same division named Adams Weader 22 resolutely refused to take arms against the Liberation Army, he declared before the Court Martial that here was not a battlefi-eld of him.

December 1966 — Lieutenant Park, pilot of 192 wing, 7<sup>th</sup> Fleet determi-

ned not to obey the order to bomb North Vietnam.

Recently on 31 January and 2 February 1967 one battalion of the 1<sup>st</sup> inf Division just came from USA refused to land on Vungtau, a group of those people including 2 officers would rather die on board than to commit crimes in Vietnam.

How admirable the genuine sons of the American people are. The Vietnamese people always bear in minds their names as they did toward Henga Hertz — Normand Morrison — Roger Laporte — Celine jane Kowsky who burnt themselves to death for a sacred aim : opposing the US aggressive war in Vietnam.

*Do act as the above mentioned friends ! Your heroic anti war acts will be*

*hailed by the Vietnamese as well as the American people.*

*Join the American people in struggling to demand a true peace in Vietnam, the withdrawal of US expeditionary and satellite troops from South Vietnam, let the Vietnamese people settle themselves their own internal affairs.*

## UNTITLED POEM

**This is a poem of a soldier belonging to the 1<sup>st</sup> Cavalry Division, the poem was handwritten into many copies and found on the American death bodies at the Pleime battlefield by the Liberation Troops when they buried them. The poem as follows:**

Just South of the 17<sup>th</sup> parallel  
Vietnam is the doomed spot  
Where we are spending our days  
In the land that God forgot

∴

Over with rats, snakes and lizards  
Over where a man gets blue  
Right in the midst of nowhere  
Oh! Brothers, did we get jewed.

∴

We sweat, freeze and shiver  
It's as much as a man can stand  
We are not supposed to be convicts  
Just defenders of our land.

∴

We the troopers of the 1<sup>st</sup> Cavalry  
Earning our measly pay  
« Protecting » the people with  
millions  
For a measly \$ 2.5 aday

∴

Living with our memories  
Parted from our wives and gals  
Hoping while we are away  
They won't marry our best pals

∴

Nobody knows if we are living  
Hardly anyone gives a damn  
At home we are all forgotten  
Because we belong to Uncle Sam

∴

But as we pass the Golden gate  
You'll hear St Petter yell
